**Dear person,**

Welcome to the **ART PROJECT "GIFTS FROM THE STREET"** This project is here to help you fulfill your dreams, using urban art and a bit of magic.

If you found this hat on the street, congratulations! You have discovered a special treasure that was waiting for you. It is the perfect opportunity to try something new.

Sometimes, big changes start with small things at unexpected moments. This project wants to give you that little push you need to start fulfilling your dreams and desires.

## **What can you do with the hat?**

Think of an idea you have, something you have always wanted to do. The hat is a symbol to help you remember and work on it. It can be anything: a project, a wish, a trip, making an important call, or even cooking something new. The hat is here to accompany you on your adventure!

An idea that does not develop in your head travels to other heads that can love it. The hat is the perfect metaphor to retain and develop what you dream of, now.

Start with the smallest thing, your first step. **Do it!**

## **Your achievement can help other people achieve theirs.**

When you achieve something, you not only help yourself but also inspire others. Every achievement, no matter how small, can give hope to someone else. By sharing your achievements and the stories behind them, you help create a chain of inspiration and support. You can be the spark that someone needs. **You are inspiration.**

If you accept this gift, you will find more information in the QR code. If you think it is not for you, you can give it to someone else, leave it where you found it, or keep it without doing anything. The decision is yours.

With love,

Hat gifted by: \_\_\_\_\_
